Please quote your policy number shown above in all communications and keep this document with your travel insurance policy at all times. This declaration sets out the details provided by you and the amendments, where required, to your policy.

Medical Conditions Declared for: Rebecca Ashe - AGE: 30

Vitamin B12 deficiency

- How many blood tests have you had for this condition in the last 12 months? => 0 - 1
- Do you have any nerve damage as a result? => No

We are pleased to confirm that your Wapp travel insurance policy has been extended to provide cover for any claims arising as a result of the above declared medical.

This is as long as you have made a full and honest declaration and you remain eligible for cover.

If there are any changes in health or prescribed medication prior to cover starting, before booking, or departing on any trip and throughout the life of your policy, then we must be notified immediately in order for us to confirm the continuance of cover. An additional premium may be required when changing your medical declaration. Failure to notify us of any changes may result in a claim being invalidated.

Claims arising either directly or indirectly as a result of any Pre-existing Medical Conditions (as defined in the policy) of an insured person are covered only when a declaration specifically agreeing to this has been issued and the required additional premium paid.

IMPORTANT REMINDER

Failure to declare ALL pre-existing medical conditions that are relevant to the insurance may invalidate the policy.
